

# Virtual conference: *triMS.online* 2023 abstract submission form

## **BTK inhibitors: an exciting new era in MS therapy**

**We welcome the submission of abstracts for presentation at the *triMS.online* conference on 25 May 2023**

**This free event will be recorded and streamed live to a global audience**

**Content can be accessed by registrants during and after the event**

**The abstract submission deadline is 22:00 GMT on Sunday 16 April 2023**

### **Topics for abstract submission**

Abstracts on the topics below will be considered for acceptance. When you submit your abstract, please select the most appropriate topic.

1. Prospects of BTK inhibitors for long-term administration in MS
2. BTK inhibitors and progressive MS
3. BTK inhibitors and the future of MS management

### **Authors**

There is no limit to the number of authors per abstract.

Please note, no corrections or alterations can be made after the submission deadline.

Authors will be notified by email by 19 April 2023 whether or not their abstract has been accepted.

The corresponding author is responsible for informing the co-authors about the status of their submitted abstract. Please ensure that the corresponding author's email address, as well as their full name, are correct.

**Questions? If you have any questions, please contact the team at [submissions@trimsonlineconference.com](mailto:submissions@trimsonlineconference.com)**

### **Abstract submission**

- Abstracts should be submitted by completing this PDF form (see next steps) and emailing it, along with an editable version of your abstract, to [submissions@trimsonlineconference.com](mailto:submissions@trimsonlineconference.com)
- Abstracts must be submitted in US English
- Your abstract should be 250 words maximum and include the following sections: Background, Methods, Results, and Conclusion
- This form must be submitted as a PDF file.
- Full abstract guidance is available at [trimsonlineconference.com/](http://trimsonlineconference.com/) submit-an-abstract.

Please choose the most appropriate topic for your abstract (only one can be selected)

Prospects of BTK inhibitors for long-term administration in MS

BTK inhibitors and progressive MS

BTK inhibitors and the future of MS management
